EDUCATION

B.Tech, AI & Data Science
Saranathan College of Engineering
2025 – 2029 · CGPA: 8.67

Higher Secondary
Periyar Centenary Memorial
Matriculation HSS

TECHNICAL SKILLS

Languages
Python, Java, JavaScript, SQL, C, HTML5, CSS3

Frameworks & Libraries
FastAPI, Tailwind CSS, NumPy, Pandas, Scikit-learn

Databases
SQLite, MySQL

Tools
Git, GitHub, VS Code, Figma, Vercel, Netlify

Core Concepts
Artificial Intelligence, Machine Learning, Data Analysis, REST API Development, OOP, Responsive Web Design

CERTIFICATIONS

- SQL (Basic)**
HackerRank
- Generative AI & LLMs**
Anthropic AI Certification
- AI Productivity Workshop**
be10x
- UI/UX Workshop**
HCL x GUVI — Vortex '26, NIT Trichy
- UI/UX Webinar**
BrandMonk Academy
- Video Editing Webinar**
BrandMonk Academy

LANGUAGES

English, Tamil, Hindi, Sourashtra, Mandarin (Beginner)

PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science undergraduate skilled in building AI-powered applications and responsive web platforms with Python, FastAPI, JavaScript, and Tailwind CSS. Proven ability to design, develop, and ship full-stack projects end-to-end, with a strong focus on clean UI/UX and practical problem-solving. Seeking an internship in AI, Software Development, or Web Development.

EXPERIENCE

Artificial Intelligence Intern 2026 – Present
InternsForge AI

- Developed hands-on proficiency in Machine Learning fundamentals, data preprocessing, and AI model development through real-world assignments.
- Applied Python and AI libraries to build intelligent solutions, strengthening analytical and problem-solving skills.
- Explored data analysis, model evaluation, and optimization techniques for AI-driven systems while following professional development practices.

PROJECTS

CareerForge AI [github.com/oviya-anbunepoleon/CareerForge-AI](#)
Python · FastAPI · SQLite · HTML/CSS/JS · Tailwind CSS

- Engineered an AI-powered career guidance platform that evaluates aptitude, technical, and communication skills to recommend personalized career paths.
- Built a readiness-scoring engine with AI-generated feedback and automated PDF report generation.
- Designed a modern, fully responsive UI backed by a FastAPI + SQLite service layer.

Focus Desk [github.com/oviya-anbunepoleon/Focus-desk-](#)
HTML · CSS · JavaScript · Tailwind CSS

- Built a distraction-free productivity web app for students to manage tasks and study sessions.
- Implemented a task manager and study planner within a clean, student-friendly responsive interface.

Article Website [github.com/oviya-anbunepoleon/oviya-article](#)
HTML · CSS · JavaScript

- Developed a responsive educational article platform with modern layouts and optimized, mobile-friendly reading experience.

ACHIEVEMENTS

- Hackathon Finalist — qualified for the final round among competing student teams.
- Built and deployed multiple responsive full-stack web applications, published and maintained on GitHub.
- Active open-source contributor with a consistent GitHub project history.
